MESSAGE

FROM THE MANAGER

Nairobi Muslim Academy was established in 1995 and is a recognized Islamic integrated learning institution, thanks to Allah (SWT) for his guidance and blessing our humble efforts.

NAIROBI MUSLIM
ACADEMY STANDS TALL
AS A GIANT WITH A SOLID
PAST SINCE 1995.

The need for an integrated education system that combines both the Islamic teachings and the secular curriculum has never been so urgent. We are living in a world that has so many emerging challenges especially for our youth. They need positive guidance and an environment that nurtures them to be balanced individuals who not only love their religion but are motivated to do their best in their studies to serve the Ummah.

Nairobi Muslim Academy stands tall as a giant with a solid past since 1995. It seeks to provide a holistic education for our children trusting Allah (SWT) for His guidance and blessings. It has grown into a fully-fledged institution consisting of Nursery, Primary and Secondary Schools with boarding facilities for Muslim girls from all over Kenya. As the government education system transitions into the Competency Based Curriculum (CBC), Alhamdulillah (All Praise be to Allah), Nairobi Muslim Academy has ensured it prepares adequately for the new syllabus to meet the emerging needs.

As the first cohort of competency based curriculum transits to junior high school in January 2023 we are pleased to inform you that NMA is set to take learners through profound learning experiences with precision aimed at preparing learners well for the various pathways in Senior Secondary.

At NMA our approach in education and knowledge seeking has always been informed by integration of knowledge, skills and attitude. It is through this background that the Islamic civilization had made a breakthrough in science and technology while maintaining great Islamic values. This has over the years enabled us produce all rounded students with strong Islamic foundation who are able to apply Islam in their day to day life.

ISLAMIC PROGRAMMES

QURAN

We have specialized Quran teachers who are on board to teach our students from the first alphabet of Quran to complete verses and finally be able to read any surah in the correct manner. On completion of their study period our students graduate from their Quran session.

Our students have participated in Quran competition both locally and internationally.

A. TAJWEED

This refers to the pronunciation in reciting the Quran. Our students are taught the rules of tajweed which range from nasalization, hiding, merging, flipping and echoing. This is meant to enable them recite the Quran in the most correct and beautiful manner.

B. HALAQATS

The halaqatas are students centered and student driven programmes of self education covering Quran, Hadith and Fiqh.

The books studied in the halaqats are:- The Holy Quran English translation, Riyadhul saliheen, Bulugh al Maram and Kitabul Dhikr. The above programme has had great impact on our learners particularly on self regulated behaviour Alhamdulillah.

C. ISLAMIC LECTURES

We have Islamic oriented teachers (female) who come in every Saturday and Sunday to give lectures to our students mostly on Fiqh (Islamic jurisprudence) and Seerah (Life of the Prophet). This has increased the students' knowledge base and has guided them in tackling many issues in today's world.

D. TARBIA

This refers to character development. We instill good morals in our students by building on their thoughts, organizing and controlling their conduct and emotion according to the deen of Allah. This is in order to achieve the goal of Islam in the life of every student which is to please Allah (SWT) the Creator. The personal Leadership and development course offered once a week per class has greatly reinforced the tarbia programme.
